CHALLENGE DETAILS:

Eligibility & How to apply:

The competition is open to all the budding enthusiasts who would wish to showcase their CAD talent to the tech world out there.

This is a two stage event. First stage will be conducted online, one week prior to Celesta. Interested candidates should directly mail their design to the mentioned email below which shall be evaluated accordingly. Second stage, will be an offline event, where the selected candidates from the first round, will have to solve the given problem statement in the given stipulated time.

Important Dates:

Release of Online Problem Statement (First Round): 20/10/2018, 7:00 p.m.

Submission of Design for First Round: 21/10/2018, 12:00 a.m. (Duration: 5 hours)

Important Instructions:

- Make the Plan in separate .dwg files. In case you are using any other design software apart from AutoCAD you are free to send a screenshot of your design.
- The units of the plan must be set appropriately (Proper scaling factors)
- Mail it to **ace@iitp.ac.in** with the subject "Plan-CAD Maestro".
- Your plan must contain a title block containing your name and Institution Name.
- In case of a tie during evaluation the person who had sent the earliest received mail would be considered the winner.
- All mails sent after 12:00 am will NOT be considered for evaluation.
- If the plan is partially complete then partial marks would be awarded.
- If any of the dimensions are not specified the participant is expected to use their judgement to use an appropriate dimension as per the problem statement given.

Important declaration:

- Please keep checking the Celesta website and Celesta, IIT Patna Facebook page for any future updates.
- The rules can change without prior notification.
- In case of any dispute, the decisions made by the organizing committee and judges are final and binding.
